Dr. May’s Grand Rounds

Getting into the Holiday Spirit!
Kudos to **Dr. Seth** for being appointed to Program Director for the neuromuscular fellowship!

Kudos to **Dr. Carroll** for being appointed to Associate Ambulatory Medical Director!

Kudos to **Sofia Chernet (PGY2)** for strong work during a busy week with lots of variety, including strokes, status, brain tumors, ICH, GBS, and a myasthenic crisis! - Sheng Tang (PGY4)

Kudos to **Sheng Tang (PGY4)** for being a wonderful senior on nights! - Sofia Chernet (PGY2)

Kudos to **Theja Reddy (PGY2)** for doing an awesome job on nights! Including an overnight LP and dealing with a complicated ICH code that turned comfort care in the ED through an interpreter - Karl Guo (PGY3)

Kudos to **Karl Guo (PGY3)** for being so calm and composed, especially on a night when we were getting slammed with multiple consults and floor patients decompensating and being a great role model on his first time senioring on nights! - Theja Reddy (PGY2)

Kudos to **Jesus A. (Spanish Translator)** for coming to a long stroke code and staying for the whole time on a holiday Sunday afternoon. His efforts were very important! - Charlie Otte (PGY3)

Kudos to **Karl Guo (PGY3)** - He has really been exemplary. He is always communicating with the fellow regarding clinical updates to follow up regarding possible EEG changes. In addition, we have had two complicated patients with epilepsy on service and he proposes potential next steps with treatment and has clearly thought about the patient’s care beyond just inpatient care and discharging the patient. I have seen the same level of engagement and interest and passion for patient care in the outpatient setting. Karl is consistently an outstanding resident to work with both on the inpatient and outpatient sides - Dr. Templer

Kudos to **Emmanuel Okematti (PGY1)** - he has worked incredibly hard. He is an excellent communicator and very thoughtful in his clinical approach of the patient's various medical issues. I've interacted with a handful of interns and residents at both NMH and the VA and he really stands out clinically in addition to being very pleasant and a team player - Dr. Catherine Wang (GI/hepatology attending)

Kudos to **Fady Mousa-Ibrahim (NCC fellow)** for being so helpful, kind, thoughtful and patient while staffing overnight during some very busy shifts - Jyoti Grewal (PGY3)

Kudos to **Dina Ghandour (PGY4)** for being such a an amazing senior over the holidays when we had 30 patients! Even in the chaos she made it a fun learning environment and did an excellent job caring for all our patients! - Courtney Raab (PGY2)
We would like to thank and recognize our Community Health Clinic volunteers from December 2022 - December 2023 for their engagement and dedication! - Jen and Dina
