“Congratulations to Christina Lineback (PGY-4) & Brian Stamm (PGY-3) for being recognized by the 10 West nurses for the Big Cheese Award. This award is given by the nurses to the residents they feel demonstrate exemplary performance, collaboration, and leadership.” - 10W Nursing Staff

Christina Lineback (PGY-4)
“Always positive and makes others laugh and smile around her! Always looks at the whole patient, not just the neurology concerns. I have seen her advocate for patients’ family needs and safety concerns multiple times. She looks at the long-term care for patients not just today’s plan of care. She is fantastic at individualizing patient care to make sure patients feel 100% supported. Also, great team player with the interdisciplinary team!!”

“Great communication with the nurses; goes above and beyond for her patients; positive attitude; smart; kind.”

Brian Stamm (PGY-3)
“Brian is one of the nicest human beings and is so pleasant to work with. He respects nurses’ judgements and concerns. He doesn’t just hear us, he truly listens! We collaborate so well and we get things done for patients in an effortless way!”

“I am nominating Dr. Stamm for this award because of his relationship with nursing staff. I think kindness goes a long way in interdisciplinary relationships. Brian is polite & respectful & it is evident in his everyday interactions with both staff & his patients!”
